

## Happy Valley Phonics Books Flashcards Printing Instructions

### General

Flashcards are made for A4 size paper. See directions below for printing information.

### Happy Valley Phonics Book 1 and 2 Flashcards

*Alternating* is for printing on a two-sided printer. So page 1 is Ally Ant, and page 2 is the word "Ant" so when printed, Ally Ant's picture will be on the front and the word "ant" will be on the back.

*Separate* is for one-sided printers. All front pages, followed by all back pages. So page 1 is Ally Ant, page 2 is Billy Bus etc all the way to page 104, at which the back sides of the cards start. So, page 105 is the word "Ant", 106 is "Bus", etc. To print front-to-back, print pages 1 to 104 and then flip the paper over and print pages 105 to 208.

### Happy Valley Phonics Book 3 Flashcards

*Alternating* is for printing easily on a two-sided printer. So page 1 is a picture of fan, and page 2 is the word "fan" however, the picture of the fan will be numbered 1 and the word "fan" will be numbered 11.

*Separate* is for one-sided printers and not for printing back-to-front. These will print just as the cards in the back of Happy Valley Phonics Book 3. If you want to print back to front, print cards 1-10, then flip that paper over and print 11-20. Alternate every ten cards like this until all cards have been printed.
